Silverline Grabloc.

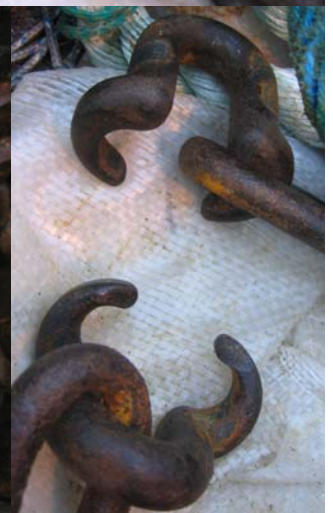

Silverline Products has put in a great effort developing products to achieve more safety for the user, to give more economical benefits to their customers and to increase the life time of their goods. It has been achieved by working closely with fishermen. Silverline has come up with many new developments and it's latest is the Grabloc "connector" which is without a pin and a bush. It is simple and quick to assemble. Silverline Grabloc is produced by Fraserburgh Engineering Ltd in Scotland.

Silverline Grabloc

Grabloc Diam	Weight kg.	MBL tonn	SWL tonn
7 mm	0,08	5,2	1,3
10 mm	0,25	12,0	3,0
